“The Newforma Integration Services team showed us how to pull information from Deltek Vision, ensuring consistent data, automatic updates and streamlined workflows.”

Lititz wastewater treatment facility; Lititz, Pennsylvania

Challenges?

- Pull Newforma Project Center data from our resource planning system as part of a smooth Newforma deployment.

Results?

- Newforma Services consultants provided the right information at the right time for a quick and successful implementation.
- Implementation across the entire firm met the company's goals for timeliness and ease.
- Pulling this data ensured a single source of information for team members and contacts.
